ABOUT - GURUKRUPA ENGINEERS PVT.LTD.

Gurukrupa Engineers Pvt. Ltd. is an ISO 9001-2008 certified engineering company, engaged in mechanical design and manufacturing of various process equipments used in chemical, food , pharmaceutical , dairy and water treatment industry.

Company was founded in the year 1991 and having present turnover of 180 million Indian rupees.

We have twenty four years of experience in fabrication of process equipments using materials like all grades of stainless steel , carbon steel , boiler quality , copper , aluminium , nickel etc. Our strength is experienced work force of technical staff and skilled workers , we can supply various process equipments conforming to Indian and international standards, under third party inspection agency like TUV, TATA PROJECTS, BREAU VERITAS , LRIS etc.

INFRASTRUCTURE & QUALITY

At present , we have four workshops of total area of 30,000 SQF , equipped with E.O.T. crane in each workshop. also 12 tons capacity of mobile crane.

Up till now , we have manufactured tanks up to max. capacity of 100 kl , Reactors up to 30 kl, Shell and Tube type Heat Exchangers 550sqm , Jacketed/Limpeted ,Sealed Insulated Vessels up to 50 kl, Distillation Column of 2.0 mtrs diameters x 20 mtrs height.

We have in-house facility of 300 tons Hydraulic press , and Machine shop equipped with lathes , Radial drilling machines , milling machines . also, plazma cutting machines and profile bending machine. Mechanical polishing facility to meet GMP standards. We have developed our customized ERP software to optimize costing , manufacturing , QC , planning , design and material management to facilitate the speedy and accurate manufacturing, we are also using SOLID WORKS and CADEM PVD software for mechanical design and drafting.
